

GM Statement:

Regarding Production Schedule Adjustments Announced on June 23, 2008.

With the continuing shift of consumer demand moving from trucks and SUVs to cars and crossovers, we need to balance our production to meet the shift in demand. Accordingly, we told employees at impacted plant facilities today (6/23/08) that we will experience down weeks and remove overtime at several of our truck plants, and add overtime to our car plants.

Specifically, the following car, crossover and van plants will add Saturdays and/or overtime to their schedules:

- Fairfax (Chevy Malibu and Saturn Aura)
- Orion (Chevy Malibu and Pontiac G6)
- Wentzville (Chevy Express and GMC Savanna)
- Lansing Delta Township (Buick Enclave, GMC Acadia, Saturn Outlook)

The following pick-up truck plants will take the following scheduled down weeks:

- Fort Wayne July 7
- Oshawa Truck July 14
- Silao July 14
- Shreveport July 14

The following sport utility vehicle plants will take the following scheduled down weeks:

- Arlington July 14 and July 21
- Janesville July 14 and July 21
- Moraine July 14 (one shift only)

Additionally, several pick-up and sport utility plants will decrease their line-speed and remove scheduled overtime.

Finally, several pick-up truck and sport utility vehicle assembly plants will experience additional down weeks that will be scheduled between now and the end of 2008.

- Fort Wayne Down 2 additional weeks
- Oshawa Truck Down 7 additional weeks
- Silao Down 2 additional weeks
- Arlington Down 3 additional weeks
- Janesville Down 10 additional weeks
