GM IS TRIPLING ITS EMPLOYEE WORKPLACE ELECTRIC VEHICLE CHARGING

22.5 MILES per day is the average commute for drivers.

OVER 90% of EV owners charge at home and/or at work.

6.5% of new vehicle sales will be electric by 2025.**

1 HOUR = time to fully recharge from an average daily commute.*

3,500 new charging plugs installed across GM U.S. and Canadian facilities.

*When using a Level 2 charger
